

Installing and registering Quality Control

QUALITYCONTROL®

The installer is the same for demo and full licenses - go to the Quality Control product page in <http://colorproseries.aleyant.com/page/trial-downloads> and click on Download Free Trial.

The installer will be downloaded to your download folder.
Locate the installer when download is complete

Double-click the installer and follow the instructions of the setup wizard

Once install is complete, the registration window will open. Fill in the fields and click “Activate” Quality Control will license itself for 14 days. If you plan to purchase, let us know the **Company name** and **email** that were used to register the application.

The screenshot shows a registration window titled "QualityControl" with a sub-window also titled "QualityControl". The sub-window has a "License" header and a message: "In order to use your software, please fill the data form and press 'Activate', you will get a 14 days demo license via web or load a license file." Below the message is a form with the following fields:

Machine ID	547A1907-3...-BE49-898C-6F301FA4EDE6
Company name *	Tucanna Software
Personal name	Darrian Young
E-mail *	dyoung@tucanna.com
Address	1902 Wright...ce Ste 200
City/ZIP	Carlsbad, CA
Country	United States
Phone	888 391 264...
Web site	www.tucanna.com

At the bottom of the form are two buttons: "Activate" and "Load license". A red arrow points down from the top of the window to the "Activate" button. Two other red arrows point to the "Company name" and "E-mail" fields.

After purchasing Quality Control, you will receive a new license file. To apply, go to the **General** tab and click the **License** button.

The license window will open again. Click Load license to search for the license file you received.

Find your license file, select it and click Open. Quality Control will now have your permanent license applied.
